Lean Proteins & Functional Organs

Chicken Breasts

- Lean, highly digestible protein
- Supports muscle maintenance without excess fat
- Ideal for dogs needing weight management or sensitive digestion

Chicken Gizzards

- Natural source of glucosamine and chondroitin
- Supports joint cartilage, mobility, and connective tissue
- High protein, low fat

Chicken Livers

- Nutrient-dense organ meat
- Rich in vitamin A, iron, copper, zinc, and B vitamins
- Supports immune health, vision, and red blood cell production

Gentle Carbohydrates & Digestive Support

Cooked Brown Rice

- Easily digestible carbohydrate
- Provides steady energy without fat overload
- Helpful for dogs with sensitive stomachs or GI upset

Pumpkin Purée

- Excellent source of soluble fiber
- Helps regulate stool consistency
- Supports gut health and digestive balance

Roasted Sweet Potatoes

- Complex carbohydrates for sustained energy
- High in fiber and antioxidants
- Supports digestive and immune health

Vegetables & Immune Support

Spinach

- Rich in antioxidants, iron, magnesium, and folate
- Supports immune health and cellular function

Broccoli

- Provides vitamins C and K
- Contains natural anti-inflammatory compounds
- Supports immune defense and digestion

Carrots

- High in beta-carotene
- Supports vision, skin health, and immune function

Bone, Joint & Metabolic Support

Bone Meal

- Supplies calcium and phosphorus
- Supports bone strength, dental health, and muscle function

Taurine

- Supports heart health, muscle function, and vision
- Important for overall cardiovascular wellness

DL-Methionine

- Essential amino acid that supports metabolism and urinary health
- Helps maintain healthy skin and coat

Zinc

- Supports immune function, skin repair, and coat health
- Plays a key role in metabolism and cellular function

Copper

- Supports connective tissue, iron metabolism, and pigmentation
- Helps maintain healthy skin and coat

Manganese

- Supports cartilage formation, joint health, and bone development
- Important for enzyme and metabolic function

Kelp

- Natural source of iodine and trace minerals
- Supports thyroid and metabolic health .

Brain, Nerve & Cellular Support

Choline Chloride

- Supports brain, liver, and nervous system health
- Helps maintain healthy cellular function

Thiamine Mononitrate (Vitamin B1)

- Supports energy metabolism and nervous system function
- Essential for healthy appetite and cellular energy production

Antioxidant & Wellness Support

Vitamin D3

- Supports calcium absorption, bone strength, and immune health

Vitamin E

- Powerful antioxidant that supports skin, coat, and immune function
- Helps protect cells from oxidative stress

Brewer's Yeast

- Rich in B-complex vitamins
- Supports energy metabolism, skin, and coat health

Digestive & Food Safety Support

Apple Cider Vinegar

- Supports healthy digestion and gut acidity
- May aid mineral absorption

Lemon Juice

- Natural preservative that helps maintain freshness

Ascorbic Acid (Vitamin C)

- Antioxidant support for immune and tissue health
